Angels of the Earth

World Nurse's Day- Nurses are the heart of healthcare - *Shivani Rajni*

World Nurse's Day- May you have a great smiling day as you make it for others! The way you spread your care, love and kindness to others, I hope in return you receive the same warmth. Happy Nurses Day. Wishing you a happy Nurses day as pretty as you're, as peaceful as you make it good for others. - *Shreya Bhatia*

World Nurse's Day- You are the strong superheroes of today. You have prioritised our lives over your own. Thank you - *Muskan Chakraborty*

World Nurse's Day - Hope all the care, compassion and kindness that you give to others always come back to you. - *Ashwika Aneesh*

World Nurse's Day - You are the hope that keeps us going through this crisis. You are the light in this dark situation. Your names won't be known but we will remember you. Always. - *Nayana Singh*

World Nurse's Day - Every Nurse is an angel with a key to a healthy community. All in caring for patients is part of nursing soul. - *Ashwika Aneesh*

World Nurse's Day - Their feet hurt, they're tired and they're hungry, but none of that is going to stop them from saving my life. I salute the nurses. - *Yadav GA*

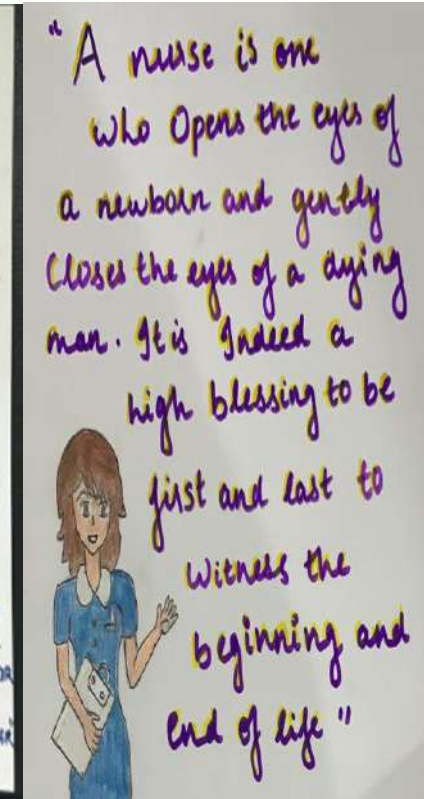

World Nurse's Day - Eve, community. - *Ravi Arshana*

World Nurse's Day - Eve, *angel with a key for health*

A +ve hope

Nurses are our pride,
They are always by our side,
They are angels for all of us,
They take care of us without a fuss.
Sacrifice their family,
To save the humanity.
They are our shield,
When we are in the battlefield.
Now they are working day and night,
Just to see us alright.
So help them to break the chain.
Stay home,
Stay safe.

- Ashwika Aneesh 81

Celebrating Tagore

Unravelling the Mysteries

Grades 7 & 8-
May

The students of Grades 7 and 8 paid tribute to a great cultural icon- Rabindranath Tagore who celebrated his 159th Anniversary on 7th May 2020 by speaking on his unforgettable contributions to the literary world.

REVIEW: You're in for a wild ride if you desire to read this book. The book is filled with mysteries and dead ends leaving it upto you to find out this law breaker. Honestly, the beginning starts out boring but as you go deeper into the story, it makes sure you are hooked, youR eyes glued to the book.

The characters I like is Alex because Alex is Professor Lidenbrock's nephew and assistant. Alex, the protagonist and narrator of the story, lives with his uncle because his parents died when he was young. When Lidenbrock decides to go to the centre of the Earth, Alex tries to stop his uncle from embarking but eventually decides to take part in Lidenbrock's adventure.

Grades 7 and 8 students were given the opportunity to read and explore mystery books that helped every reader to delve into an unknown maze involving a lot of action and gritty realism.

WORLD ENVIRONMENT DAY

As we are restricted to stay inside, why not bring in some nature indoors!

Everything stopped, everything a statue all around me. Frozen in time, my body felt numb. Questions without answers were circling around in my head. Looking around, I saw that everything was frozen, everything was nothing but ice. "What am I supposed to do now?" "I am the only one moving, I feel like I am an alien, or I have some superpowers." I tried my best to shake others, but nothing happened. I felt scared and worried. Then I felt weak and brittle, as if my bones would be snapped and chewed, as if I were a prey that had not yet been hunted down. The night was cold and dark, and it seemed as though it would go on for ages. Everyone was moored to the ice, their face convulsed in a petrified expression. I ran around trying to find an answer, to really see if I was the only person moving but I was shocked to know it was not only me, it was my best friend too. She showed me a timeline of when it's going to end. That's when I realized that it was all but a hallucination of my friend being with me. I slowly realized that I was all alone, and I had lost the only hope I had. Now, I want to wake up from this dream, but deep inside me there was still a voice that kept telling me I'd be stuck here without anyone until I froze to death. I started feeling really cold so I thought of finding a place that could keep me warm. I started walking, hoping to find one. While I was restlessly searching, I stopped by an old store house and I took some corn and a blanket. The owners face was also frozen. I continued my steady walk.

1. The short film 'seed' depicts the life of a human life. It shows us an inspiration on never to give up when facing any kind of situations in life, the plant stands strong in front of the hard rain and lightning, and these represents problems faced by us and it is said when we have faith in ourselves nothing can stop us from reaching our goal.
2. The future might be for the worse or the best. But what we must do is be prepared for any kind of situation it be bad or good, accept it, complete and move on.

NATURE IS BACK

- We all are yearning to fly back to our lives. There is nothing wrong with that, but just think about it, when we were once roaming around freely, Nature was being tortured and burned down. Now that we are staying in our homes, Nature has started to unleash its beauty back and we must not pay any cost.

When 'I' is replaced by 'We' even 'illness' becomes 'wellness'

Hope during quarantine
Lockdowns are not a silver lining for us nor for the environment. They have, however shown that nature can still flourish, if we give it the chance. This gives us a glimpse into how much better our lives could be if we lived in harmony with nature. We need to make this happen in a way that lasts.
The need of the hour is to strengthen the environmental laws and norms to build a sustainable ecosystem .Let's all promise to work towards a much promising ,healthy future. -DAKSHINA SURESH 9K

BEST THING ON EARTH

I used to think that beauty was found in the bright summer day or
The sweet sound of the colorful painted birds above the sky.
No but that's not true
The loveliest things were the flowers that grew
But I now understand that is not true.
Autumn leaves falling on the ground, the rainbows above the blue sky
Or a droplet of rain in the shape of a moon
Those were the things I really loved.
But that is not true
The best thing in the world has to be the people around us
Now I have realized in this isolation what is true.

NATURE WITHOUT HUMANS

This visual depicts that there are several benefits and drawbacks allied to existence of humans on this mother earth. This image takes me back to a vision where nature wishes for a soundless and a placid surrounding. Even though humans create a lot of distress to the environment there is an equal importance to their existence. In this picture the nature without humans seems to be quite calm and serene with no other imbalance in the nature. But if you look closely, leaves have withered off from the branches of trees as there is no specific person to look after it. The playground has been filled with dried leaves which has toned down the beauty of the nature. When we compare this illustration with the current global pandemic we are facing, it is quite similar. The COVID-19 which has created a negative impact on us humans thus have created a positive impact on the mother earth. In other words it has given our mother earth a new life and a freedom to all the troubles that the humans have caused. At the end I could just conclude that we can all stand together and face this massive epidemic that has hit us alongside by performing certain activities to boost up the environment and help to preserve our mother earth. With our combined efforts it is possible to maintain the resources and glory of the earth as well as contributing to the welfare of the future generations.

The Lonely Swing

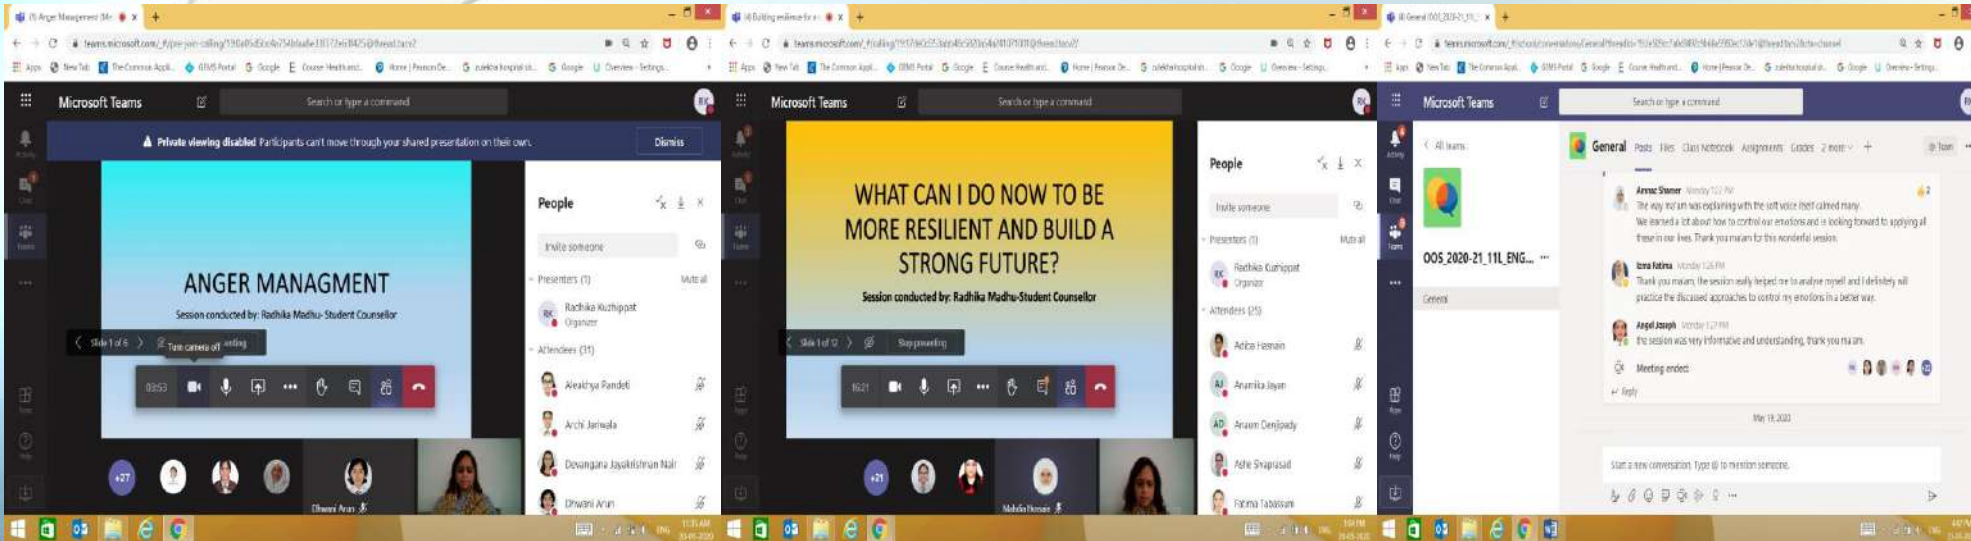

I walked through the neighborhood,
Silence surrounded the area.
The once chaotic place that stood,
Suffered from hysteria.
I wandered with a mask on,
Entering the lifeless ground.
There stood the swing,
Waiting for a living being.
The swing that brought joy to kids,
Where they entered a state of bliss.
Was now lying untouched,
With no one to give a nudge.

The Sharjah Entrepreneurship Centre (Sheraa) that launched the Online School and Start-up Sharjah, introduced a new initiative and concept that commenced in March 2020 for students of Grade 10-12 across Sharjah schools. The journey began with 8 students, Diya Menon, Aneira Pereira, Izma Fatima, Neola Castelino, Teresa Kuruvila, Serin Ann Biju, Srinidhi Gautamsarathy and Evelyn Tessy from grade 11. They had to undergo the 5-week initiative focused on developing our aspiring Young Entrepreneurs giving them an opportunity to develop and showcase their skills and interest in this area. The intensive boot camp to build their startup, from idea to prototype was altogether a new experience for our students.

After a grueling 8 week intensive mentoring with various business mentors, design thinking and marketing of their idea, OOS team comprising Aneira Pereira, Izma Fatima, Neola Castelino, Srinidhi Gautamsarathy and Evelyn Tessy delivered their price winning pitch and cracked the rigorous interview which earned them the 3rd position among 200 students who participated in the virtual competition.

The winning team will receive a cash prize of Dhs 2500 that will be awarded by Sheikha Bodour Al Qassimi in an elaborate award ceremony, once students resume their school year in September. They now have an opportunity to pitch their concept to a broader audience in the month of December at the Sharjah Entrepreneurship Festival.

The event brought together aspiring entrepreneurs with backgrounds in business, design, coding and marketing to rally around great ideas, racing to bring them to life. This workshop provided students with lifelong learning.

The student leaders came up with a one day initiative - “REVIVE- A SOUVENIR OF HARMONY AND A TOOL FOR LIFE”- on the occasion of International Yoga Day on the 21st of July 2020, for all the students. The school celebrated the day by recognizing its universal appeal by organising ‘REVIVE’ that comprised of a yoga tutorial created and starred in by [Evelyn Tessy Emmanuel 11-D, Aditri Monish 6-N, Devna Prakash 6-R, Parvathy Ramadas 10-L, Amritha Ravichandran 10-M], the students of OOS, Sharjah Girls. They showcased simple yoga warm ups, stretches, breathing exercises, meditation and a few yoga poses. REVIVE was a great platform for the students to be a part of the International Yoga Day celebrations during the pandemic.

Meanwhile the students of KG celebrated International Yoga Day with the theme -‘Yoga at home, Yoga with family’. They followed instructions from a child friendly video on simple exercises as the teacher enumerated various health benefits when yoga is practised on a regular basis.
