

E.V.S. is all about children demonstrating a keen interest in exploring and discovering the world around them. The curriculum provides stimuli from the immediate environment to allow observation, investigation, exploration, questioning and documentation of children's unique discoveries in many ways.

The area of learning development	KG 1 The children will be able to:	Learning Outcome
People and Communities	<ul style="list-style-type: none">★ Show interest in the lives of people who are familiar to them.★ Remember and talk about significant events in their own experience.★ Recognize and describe special times or events for family or friends.★ Show interest in different occupations and ways of life.★ Know some of the things that make them unique and talk about some of the similarities and differences in relation to friends or family.★ Know the importance of different people who help them★ Know the ways that fulfill people's needs(buying/selling, work)★ Learn about different means and modes of transport	<ul style="list-style-type: none">★ Begin to know about their own cultures and beliefs and those of other people.★ Find out about their environment and community.★ Learn to know about similarities and differences between themselves and others.★ Learn to know about similarities and differences between families, traditions and cultures.★ Name about different community helpers and their role in their life★ Learn to identify the ways that fulfill people's needs★ Know about similarities and differences between themselves and others and among families in their home country and in UAE★ Talk about different means and modes of transport

<p>The World</p>	<ul style="list-style-type: none">★ Comment and ask questions about aspects of their familiar surroundings.★ Talk about some of the things they have observed such as plants, animals, weather, natural and found objects.★ Talk about why things happen and how things work.★ Develop an understanding of growth and changes over time.★ Develop simple science skills, such as observation and classification.★ Show care and concern for living things and the environment.★ Find out interesting facts and features of countries like UAE, India, China & Spain.	<ul style="list-style-type: none">★ Learn to know about similarities and differences in relation to places, objects, material and living things.★ Find out about their environment and talk about those features they like and dislike.★ Make observations of animals and plants and explain why some things occur and talk about changes.★ Make observations about different weather conditions and talk about change.★ Participate in science activities, develop simple science skills, such as observation and classification.★ Show curiosity and interest through listening and questioning to seek further information.★ Talk about the facts of different countries
